Professional Summary

Cloud-focused full-stack developer with hands-on experience across **AWS, GCP, and Azure,** and three end-to-end MERN/Node.js applications. AWS Certified Cloud Practitioner seeking a Cloud/Full-Stack Engineering internship or entry-level role.

Education

Gujarat Technological University (GTU) August 2024 September 2027
Bachelor of Engineering in Computer Engineering

Bhagwan Mahavir University May 2021 June 2024
Diploma in Computer Engineering

Technical Skills

Cloud & DevOps: AWS (EC2, IAM, S3) Certified Cloud Practitioner; GCP (App Engine, Monitoring, Cloud Speech API) hands-on via 3 completed labs; Microsoft Azure resource management (internship); Cloud Security; Git, GitHub, CI/CD Pipelines

Languages & Frameworks: Python, JavaScript (Node.js, React.js), HTML5, REST API design

Databases: MongoDB, MySQL, PostgreSQL

Data & Analytics: Pandas, Matplotlib, Microsoft Power BI

CS Fundamentals: Data Structures & Algorithms, OOP, System Design, Computer Networks, Operating Systems

Experience

CloudThat Technologies Private Limited July 2026 (15 Days)
Azure Cloud Intern *Ahmedabad, India*

- Gained practical experience with **Microsoft Azure** across **15 hands-on labs** , covering cloud computing, resource management, and core Azure services.
- Completed **6 hands-on assignments** involving cloud infrastructure, deployment, and Azure resource management as part of a **15-day intensive program.**

Projects

Life4U March 2026 June 2026
Node.js, JavaScript, MongoDB, React.js, REST API

- Architected a scalable **Blood Bank Management System** supporting **4 user roles** (donor, patient, hospital staff, admin) with role-based access control and real-time inventory tracking across **5 blood banks/hospitals.**
- Designed **5 RESTful API endpoints** for real-time booking and cross-platform data sync, handling **25 concurrent users / requests.**

FarmAssist AI-Powered Farming Solution March 2025 April 2025
Node.js, Python, CSS, Machine Learning

- Built an AI-powered web app for automated plant disease detection via **computer vision**, achieving **95% classification accuracy** across **1000 plant diseases** , with real-time diagnostics through a smart chatbot.
- Integrated **multilingual NLP (supporting 7 languages)** , live weather/crop-pricing APIs, and NGO geo-mapping to support data-driven farming decisions for **10+ farmers/users.**

Justice Lawyer November 2023 January 2024
JavaScript, CSS, Node.js, MongoDB, REST API

- Developed a full-stack legal services platform connecting users with **8+ lawyers** via an intelligent matching algorithm, cutting manual search time by an estimated **70%.**
- Added secure communication, appointment scheduling, and payment integration, plus a responsive admin dashboard surfacing **6 key analytics metrics.**

Certifications & Achievements

AWS Certified Cloud Practitioner (CLF-C02)
Amazon Web Services

- Validated foundational knowledge of **AWS Cloud** concepts, core services (EC2, IAM, S3), security, architecture, pricing, and support.
- Completed **AWS Cloud Quest: Cloud Practitioner** hands-on, gamified labs covering EC2, IAM, and S3.

Google Cloud Skills Boost Multiple Completions
Google Cloud

- Completed **Monitoring in Google Cloud**, **App Engine: 3 Ways** , **Build a Website on Google Cloud** , and Google Cloud Arcade badges.

Smart India Hackathon (SIH) Participant
Government of India National Hackathon

- Solved real-world **government problem statements** under tight deadlines, demonstrating collaborative problem-solving.
